WOODSLIDE-30 | TECHNICAL DESCRIPTION

WOODSLIDE-30 is a glass sliding door with MDF 30 x 92mm frame for glasses between 6 - 10,76mm.

Possible coatings for door panels and panels are:

- painted according to RAL, NCS or Tikkurila colour catalogues.
- covered with natural or technical veneer, which may be stained and varnished, varnished with tinted varnish or painted.

The standard surface finish of aluminum profiles is natural (silver) anodizing, but it is also possible to order a painted surface according to the RAL colour catalogue.

Suitable glasses are 6 - 10,76mm.

Possible types of glass are tempered, laminated, tempered-laminated or glass units.

The surface of the glass can be bright, very bright, mass-tinted, background-painted or matte.

Door panels are available as single or pair doors.

The standard lock case is ASSA 311-50 and the counterpart FGD53. It is also possible to order other lock cases and counterparts.

Standard handle is a pull handle SE 300/15B or built-in handle ETNA 28x163, but it is also possible to use other handles.

Structures adjacent to the product must be strong enough to allow profiles to be attached to them.

Maximum door height:	2500 mm
Maximum door panel width:	1000 mm
Glass thicknesses:	6 - 10,76 mm
